ALL-IN-ONE MINI POS

Battery powered POS system

Allmark launched AMP Series, All-in-One Mini POS powered by android OS, the new compact POS system in India. Allmark has leveraged its expertise to revolutionize the small and medium (SMB) retail store operations where SPACE and CAPEX becomes hurdle to scale the business operations.

A PERFECT POS SYSTEM IN MODERN OUTLETS

AMP Series POS system is compact, durable to indoor use in sectors such as Quick Service Restaurants, Ice-Cream Parlor, Food Courts, Food Canteens, Fruits and Vegetable retail outlets, Sweets-Sale Outlets, Tea & Coffee outlets and so on..

All-in-One Mini POS could become a modern retailer's choice today – further enhancing their capability and affordability while scaling up their business models to many and more locations.

KEY FEATURES

AMP 82XX Series, All-in-One Mini POS – AMP 82XX Series is cost-effective model designed to meet small-and-medium sized retail businesses.

Weighing Scales and Cash-drawer connectivity simply eliminates the traditional computer based POS systems to make a quick ROI in business.

AMP82XX series **can be paired with barcode label printers**, with AllPOS Software from Allmark, or any capable third party software supplier for barcode scanning and billing operations.

Easy to deploy without time-consuming staff training. 8" Capacitive touch display with android interface provide a familiar experience that is easy to use.
